Taguig City, Philippines

Professional Summary

Cloud and Solutions Architecture leader with 3 years of experience designing scalable, automated cloud infrastructure across AWS and Kubernetes environments. Proven expertise in Architecture Governance, Systems Design, and driving continuous improvement through AI-assisted engineering and Lean Six Sigma methodologies. Adept at bridging the gap between business objectives and technical execution, providing pre-sales support, mentoring engineering teams, and leading end-to-end solutions delivery for high-stakes enterprise projects.

Core Competencies

- **Architecture & Design:** Solutions Architecture, Systems Design, Service Blueprints, Architecture Governance
- **Cloud & Platforms:** Cloud-Native Architectures, AWS, Kubernetes, Terraform, CloudFormation
- **AI & Digital Transformation:** AI-assisted engineering (Gemini, Claude Code, MCP), n8n Workflow Automation, Python
- **Leadership & Delivery:** Pre-sales Support, Technical Mentorship, Continuous Improvement, Client Communications

Professional Experience

Cambridge University Press and Assessment

Site Reliability Engineer - Education Technology | March 2025 - Present

- Own the solutioning and reliability outcomes of cloud platforms, ensuring scalable and secure systems that align with overarching business objectives.
- Spearhead maintenance of cloud infrastructure involving end-of-life support, database migrations, server and runtime upgrades and rearchitecture and shifting of legacy infrastructure.
- Lead a cost optimization annual activity that resulted to up to 80% savings per platform.
- Head biannual back-to-school infrastructure preparation to cater 3-4x traffic/load in platforms to provide optimal user experience.
- Collaborate with developers, qa and solutions team for production ready releases and secured deployment.
- Develop and enforce architectural standards through automated observability solutions, reducing manual toil and mitigating delivery risks.
- Implement process improvements and infrastructure automation using AI agents and n8n, ensuring seamless integration of designs into project execution.

Apper Digital Inc. & CloudSchool

Cloud Engineer - Technical Trainer | April 2023 - May 2025

- Provided pre-sales technical leadership by leading client scoping sessions, defining architectural approaches, and translating business needs into actionable technical requirements.
- Designed, documented, and deployed secure Cloud-Native AWS solutions tailored to client constraints, enforcing industry best practices and compliance standards.
- Spearheaded infrastructure optimizations and architectural audits that successfully reduced client cloud expenditure by 15% annually.
- Elevated the capability and execution standards of over 200 professionals by delivering specialized training in AWS, Kubernetes, and cybersecurity principles.
- Collaborated closely with cross-functional teams to resolve complex technical challenges and ensure the integrity of solutions delivery from planning to operations.

Mentorship Activities

- **SRE Workshop Facilitator, DSWD Field Office V:** Lead technical knowledge management initiatives, recently designing and facilitating a comprehensive 3-day SRE workshop for 30 government stakeholders.
- **Guest Speaker, Colegio de Muntinlupa:** Drive advocacy for robust systems design by delivering technical seminars, such as "Architecting the Invisible: Principles of Reliable and Scalable Cloud Systems" for 30 participants.
- **Speaker, AWS Community Day 2024 and 2025:** Lead a lecture about Site Reliability Engineering and how to balance cost and reliability in a production environment without breaking the quality and user experience.

Educational Background

BS Electronics Engineering Degree

Southern Luzon State University, Lucban, Philippines | 2013 - 2018

Certifications

- **6x Certified in AWS:** Data Analytics Specialty, Solutions Architect Associate, Developer Associate, CloudOps Associate, Cloud Practitioner, AI Practitioner
- **2x Certified in Kubernetes (Linux Foundation):** Cloud Native Associate, Kubernetes Application Developer
- **2x Lean Six Sigma:** White Belt Certification, Yellow Belt Certification
